

Brief Use Case – Extra Bridge

During a player's turn, the player chooses to use the "*Extra Bridge*" special action card. The system allows the player to place two bridges in valid positions, in accordance with the game rules. Once placed, the system updates the board to reflect the new bridges available to all players and removes the "*Extra Bridge*" card from the player's available cards.

Brief Use Case – Bridge Removal

During a player's turn, the player chooses to use the "*Bridge Removal*" special action card. After completing their normal move or bridge placement, the system allows the player to remove one existing bridge from the board. The system updates the board to reflect the bridge removal for all players, preventing further movement across the disconnected pads, and removes the "*Bridge Removal*" card from the player's available cards.
